Product Portfolio

Security

ANSI/BHMA
(American National Standards Institute)
(Builders Hardware Manufacturers Association)

CERTIFIED SECURITY

Locks are graded by independent agency (ANSI) and are BHMA Certified.

- Grade 1** – Heavy Duty Commercial Security
- Grade 2** – High Residential Security
- Grade 3** – Residential Security

Pick Resistant – SmartKey withstands the highest level of UL pick testing, UL 437, Par. 11.6

SMARTKEY

Re-key: As Easy As:

- 1** Insert functioning key & turn 1/4 turn clockwise.
- 2** Insert & remove the SmartKey learn tool. Remove functioning key.
- 3** Insert new key & turn 1/2 turn counter-clockwise. Your lock is now re-keyed!

You must have your functioning key & your learn tool for the system to work.

Rustic Finishes

The saying "What's old is new again" certainly has relevance in today's design trends, and at Kwikset there is no exception. Kwikset Signature Series is proud to offer three additional finishes with old world charm; **Rustic Pewter**, **Rustic Bronze** and **Iron Black**.

1 KEY IT YOURSELF

Lock is rekeyable in less than 30 seconds by using the included learn tool without removing the lock from the door.

2 BUMPGUARD™

Patented side locking bar technology replaces a traditional pin & tumbler design to protect against lock bumping.*

3 DRILL RESISTANCE

Cylinder uses two steel balls inserted into the front of the key face to resist attack from drilling.

4 NEW TECHNOLOGY

Locking bar, racks and pins are made out of stainless steel for increased strength & durability.

*Lock bumping - an attack technique using specially cut keys that can defeat conventional pin & tumbler locks.

Finishes

Our philosophy is that a finish can make all the difference. From Polished Brass to Venetian Bronze, the finish you choose makes a statement. It can, quite literally, finish off a room, giving it style and polish. We offer a full spectrum of finishes and textures.
